

# 175' BOURBON MARIN

DP1 Fast support and intervention vessel (FSIV)

50 passengers

223 Metric ton deck cargo

175' FSIV BOURBON MARIN has been designed by Midship Marine's Design Team for fast transportation of personnel and cargo.

Able to carry 223 metric tons on deck at 20 knots, this vessel allows crew changes on distant deep water fields and urgent cargo shipments.

Under the main deck, the vessel is fitted with fuel and fresh water cargo capacities.

The propulsion with four water jets and two bow thrusters gives her an excellent manoeuvrability.
